DOUBLE TAKE

[The Whole Patient — Toward Holistic, High-Value Care](#) 12m 7s

In this Double Take video from the *New England Journal of Medicine*, Drs. Pound and Ganguli discuss the importance and benefits of a comprehensive patient-centered approach to treating older patients. They show how such efforts can provide high-value care and improve the quality of life for this patient population.

For further reading, the following articles, referenced in the video, are available at NEJM.org:

[How Does Health Care Burden Patients? Let Me Count the Days](#) (Ganguli, in the September 12, 2024, issue of the *Journal*).

[Age, Complexity, and Crisis — A Prescription for Progress in Pandemic](#) (Aronson, in the July 2, 2020, issue of the *Journal*).
